Dear Lee:

Enclosed is an analysis by Gerald of the over pumpage in the Milford Valley for 1976. This is way out of line.

Would you please inform these people of their balances and the fact that they are going to be held to the 4-acre feet. In addition, it would greatly assist me if you would fill out the monthly report that you used to make out, and mail them to me this year. I would like a report for April so that I can get a feeling of how the pumping is going this year.

Yours very truly,
